

# MARC FULMER

486 W Circle Dr, 110 Marshall-Adams Hall, East Lansing, MI 48824  
517-355-7583 | [fulmerm1@msu.edu](mailto:fulmerm1@msu.edu) | [marcfulmer.com](http://marcfulmer.com)

## PROFESSIONAL SUMMARY

---

**Senior Economist & Data Scientist** with 8 years of combined experience in health and labor market analysis, regulatory auditing, and trend decomposition. Expert in applying Difference-in-Differences (DiD) for causal measurement and robust decomposition frameworks for trend attribution. Proficient in SAS, Python, R, and Stata for reproducible statistical workflows, with prior professional experience in SQL for regulatory data auditing.

## SKILLS

---

- **Quantitative Methods:** Difference-in-Differences (DiD), Trend Decomposition, Synthetic Controls, Quasi-Experimental Design, Data Visualization (ggplot2, Tableau).
- **Technical Stack:** SQL, Python, R, LaTeX, Excel.
- **Core Competencies:** Forensic Data Analysis, Technical Communication, Regulatory Compliance (FERC).

## RESEARCH EXPERIENCE

---

**Michigan State University** | East Lansing, MI  
*Researcher & PhD Candidate* | 2020 – Present

### **Lead Analyst: Workers' Compensation Trend Decomposition (2024 – Present)**

- **Trend Decomposition Analysis:** Designed a descriptive decomposition framework using CPS ASEC and SOII data to isolate the drivers of a 44% decline in benefit reciprocity.
- **Factor Attribution:** Quantified the relative contributions of policy changes vs. workplace safety improvements, identifying that safety gains—rather than policy retrenchment—account for the majority of the caseload reduction.
- **Data Strategy:** Engineered parallel workflows to analyze CPS ASEC microdata (benefit reciprocity) and SOII injury statistics, aligning disparate reporting metrics to support the decomposition framework.

### **Project: Fiscal Spillovers in Social Insurance (Oregon Study)**

- **Impact Evaluation (DiD):** Designed and estimated Difference-in-Differences models to evaluate the causal impact of labor reforms on benefit reciprocity, controlling for unobserved heterogeneity.
- **Findings:** Demonstrated that policy changes did not lead to program substitution, effectively ruling out cost-shifting as a driver of fiscal outcomes.

## PROFESSIONAL EXPERIENCE

---

### **Monitoring Analytics, LLC** | Eagleville, PA

*Market Analyst (Energy Market Monitoring)* | 2012 – 2015

- **Regulatory Compliance & Auditing:** Audited Black Start revenue requirements for PJM Interconnection (the Mid-Atlantic power grid operator), ensuring all requests met strict FERC documentation standards.
- **Market Structure Analysis:** Utilized SAS and SQL to produce detailed economic analysis of the structure, behavior, and performance of ancillary service markets for regulatory reports submitted to PJM stakeholders.
- **Forensic Analysis:** Verified the proper implementation of clearing rules for joint California-Québec Cap-and-Trade allowance auctions.

### **Michigan State University** | East Lansing, MI

*Instructor & Technical Communicator* | 2021 – 2025

- **Technical Communication:** Managed all aspects of an introductory macroeconomics course for 90 students, translating abstract economic models into practical, real-world examples.
- **Subject Matter Expertise:** Served as a mentor for incoming PhD students (Early Start Program) and a subject matter expert evaluator for the university's undergraduate research forum.

### **Luminous Financial Planning LLC** | Lansdale, PA

*Financial Planner (Independent/Self-Employed)* | 2016 – 2019

- **Advisory:** Managed a small client base, providing fiduciary advice on retirement and investment goals.

## EDUCATION

---

### **Michigan State University** | East Lansing, MI

- **PhD in Economics** (Expected May 2026)
  - **Fields:** Health Economics, Labor Economics, Public Economics
  - **Awards:** University Distinguished Fellowship, Dissertation Completion Fellowship
- **MA in Economics** (2022)

### **Temple University** | Philadelphia, PA

- **BA in Mathematical Economics** (2012)
  - **Awards:** *Summa Cum Laude*, Phi Beta Kappa
