PROFESSIONAL SUMMARY

Economist with 8 years of applied experience in health and labor market analysis, regulatory auditing, and forensic data work. Specialized in administrative microdata, causal inference, and trend decomposition for policy evaluation and litigation support. Extensive experience building reproducible workflows in Stata, R, Python, and SQL and independently managing end-to-end analytical projects.

TECHNICAL AND ANALYTICAL SKILLS

- **Data & Tools:** Stata, R, Python, SQL, Excel
- **Methods:** Difference-in-Differences, Trend Decomposition, Synthetic Controls, Quasi-Experimental Design
- **Applied Focus:** Administrative & Survey Microdata (BLS SOII, IPUMS CPS), Forensic Data Analysis, Replication & Validation, Regulatory Compliance (FERC)

RESEARCH EXPERIENCE

Michigan State University | East Lansing, MI

Economist / Researcher (PhD Candidate) | 2020 – Present

Lead Analyst — Workers' Compensation Trend Decomposition (2024 – Present)

- **Trend Decomposition Analysis:** Designed and implemented a decomposition framework using CPS ASEC and SOII microdata to quantify the drivers of a 44% decline in workers' compensation benefit recipiency.
- **Factor Attribution:** Quantified the relative contributions of policy changes versus workplace safety improvements, showing that safety gains—not policy retrenchment—account for most of the caseload reduction.
- **Data Strategy:** Engineered parallel Stata and R workflows to harmonize CPS ASEC microdata and SOII injury statistics, aligning disparate reporting systems into a unified analytical framework.

Project — Fiscal Spillovers in Social Insurance (Oregon Study)

- **Impact Evaluation (DiD):** Designed and estimated Difference-in-Differences models to evaluate the causal impact of labor reforms on benefit recipiency, accounting for unobserved heterogeneity.
- **Findings:** Demonstrated that policy changes did not induce program substitution, ruling out cost-shifting as a driver of observed fiscal outcomes.

PROFESSIONAL EXPERIENCE

Monitoring Analytics, LLC | Eagleville, PA

Market Analyst — Energy Market Monitoring | 2012 – 2015

- **Regulatory Compliance & Auditing:** Audited Black Start revenue requirements for PJM Interconnection, ensuring compliance with strict FERC documentation and evidentiary standards.
- **Market Structure Analysis:** Produced detailed economic analyses of ancillary service market structure and performance using SAS and SQL for formal regulatory reporting to PJM stakeholders.
- **Forensic Analysis:** Verified the proper implementation of market clearing rules for joint California–Québec cap-and-trade allowance auctions.

Michigan State University | East Lansing, MI

Instructor & Technical Communicator | 2021 – 2025

- **Technical Communication:** Managed all aspects of an introductory macroeconomics course for 90 students, translating abstract economic models into clear, real-world applications.
- **Subject Matter Expertise:** Served as a mentor for incoming PhD students (Early Start Program) and a subject matter expert evaluator for the university's undergraduate research forum.

Luminous Financial Planning LLC | Lansdale, PA

Financial Planner (Independent/Self-Employed) | 2016 – 2019

- **Advisory:** Managed a small client base, providing fiduciary advice on retirement and investment goals.

EDUCATION

Michigan State University | East Lansing, MI

- **PhD in Economics** (Successfully Defended; Expected May 2026)
 - **Fields:** Health Economics, Labor Economics, Public Economics
 - **Awards:** University Distinguished Fellowship, Dissertation Completion Fellowship
- **MA in Economics** (2022)

Temple University | Philadelphia, PA

- **BA in Mathematical Economics** (2012)
 - **Awards:** *Summa Cum Laude*, Phi Beta Kappa
